DOP

Mart was born in 84, Tallinn, Estonia. Back in 1991 he got the first feel of the camera lens from his father. Influenced by all of the classic films of that era - started his own adventure in Baltic Film and Media School in Tallinn. Jumped on the crazy train of the Cinematographers world and been riding that wagon ever since. Always fascinated to capture the characters and the essence of the story.

Member of the Estonian Society of Cinematographers E.S.C.
